## Intro

***Change only can takes place through action!***

***It's time to act! It's time to realize World Peace, in a simple, elegant, intelligent and unusual way.***

*At the High Frequency level of flow, Serendipity (synchronicity) and win-win for all. At the level of solidarity, integrity, equality, autonomy and self-reliance. Let's realize an inspiring future perspective for all young people worldwide. Let's organize a clean, green and futureproof planet where war, poverty, hunger, racism, isolation, loneliness, slavery, abuse, crime, inequality, exclusion, destruction, pollution and social, political and cultural divisions are belonged to the past. Let's realize happy, healthy and self-sustaining communities where people are happy, healthy and super vital and living and working together in peace, freedom, harmony and abundance.*

***The future depends on our actions in the present.***

***I have designed the Global Peace Building Program to unlock human potential and to activate Human Capital.***

*To organize the uncompromising paradigm, shift from scepis to trust. From talking to doing. From a narrowed to an expanded consciousness to see the solution. To solve current challenges and historical issues on the root cause site. This doesn't happen by itself. It starts with Personal Excellence Training based on the consistent implementation and anchoring of universal core values (respect, honesty, equality and unconditional love) in attitude, behavior and mindset. In policymaking, decision-making and quality of leading, governing, acting, learning, performing, communicating, collaborating and organizing politics.*

***If we want to change the fruits (results), we need to change the roots!***

***We invite you to join the most revolutionary and pattern breaking awareness program of all times.***

*It's life changing because of the strategy to accelerate the expansion of consciousness. It's Mind-blowing because of the quantumleap to TOPLEVEL awareness. From this zero-limit perspective (meta vision) you can see how to solve historical issues and current challenges at the root cause side. Let's stop give people fish, let's teach them how to fish. Let's give people the most practical and logical skills to become a human, visionary and inspiring leader, a master of manifestation and a person free of prejudices. This have benefit for a lifetime and the next generations. Let's make world peace topic number one in our agenda's. Let's realize world peace by the expansion of consciousness.*

***With love, Pauline***
